

# Imagine Your Tile Floor Looking Like New

## And Staying That Way — Guaranteed

**D**o you have beautiful tile floors with ugly grout? This can easily happen if the seal on your grout isn't properly maintained. A broken seal allows dirt, mildew and stains to penetrate the porous grout making it appear dull and dirty. The discolored grout can turn your once dazzling floor into an eyesore. There is a solution. Grout MD can make your tile surfaces look better than new with a trouble-free and quick process.

"We make old grout look new and keep new grout looking new," says Jeff Gill, owner of Grout MD which serves the New Jersey, New York and Connecticut tri-state area. "We provide a distinct service with an uncommon result. Many homeowners are unaware that they can bring back the beauty of their tile floors, walls and countertops without tearing up their tile and starting over."

Grout MD uses a vapor steam cleaner to remove embedded dirt and bacteria from your grout. Then they apply a sealant that can either restore or change the grout's original color depending on a customer's wishes.

The color sealant is absorbed into the grout creating a barrier to stains and dirt. The grout looks new and if maintained correctly, it will retain its fresh look permanently. The Grout MD process is non-toxic and odorless and takes usually four to five hours to complete. Most homeowners can walk on a tile floor within minutes after the process is completed.

"The grout lines will be one uniform color and able to repel stains, water and mildew," notes Gill. Grout MD also offers a lifetime guarantee for its process. "A homeowner simply needs to follow our prescribed maintenance program and use a PH neutral cleaner. We not only carry the cleaner for our customers, we can deliver it to their door as well."

If dull and dingy grout is making you tire of your ceramic tile floors and surfaces, call Grout MD before you decide to take drastic measures. Visit their website at [www.sirgrout.com](http://www.sirgrout.com) to see how their process transforms tile surfaces. You can also call (866) 476-8863 or (866) GROUTMD for a free, no obligation estimate. DL
